

## Day 7

Name: TAPAN.K.R

Date: 27.08.2024

### Console Application Output:

```
using System;
using System.Collections.Generic;
using System.Linq;
using System.Text;
using System.Threading.Tasks;
using System.Data;
using System.Data.SqlClient;

namespace ADOapp
{
    class Program
    {
        static void Main(string[] args)
        {
            // Insert your code here
            Console.WriteLine("Enter your Choice:");
            Console.WriteLine("1. Create");
            Console.WriteLine("2. Fetch");
            Console.WriteLine("3. Insert");
            Console.WriteLine("4. Update");
            Console.WriteLine("5. Delete");
            Console.WriteLine("Do you want to continue(yes/no)");
            Console.WriteLine("yes");
            Console.WriteLine("no");
            Console.WriteLine("Enter the number of records wanted to be inserted:");
            Console.WriteLine("1");
            Console.WriteLine("Enter the product id 1 :");
            Console.WriteLine("5");
            Console.WriteLine("Enter the product Name 1 :");
            Console.WriteLine("sony");
            Console.WriteLine("Enter the product price1 :");
            Console.WriteLine("2500");
        }
    }
}
```
